HAVAS

London, Jan. 22nd.—Continuous exchange of notes between the Portuguese and British Governments respecting the Black Country. The impression is general that the question will be left to the arbitration of the Pope.

Madrid, 22nd.—The young King completely recovered. Cabinet completely organized by entry of Sr. Becerra as Minister of Foreign Affairs and Sr. Veragua Minister of Fomento. Important financial measures mooted.

GALVESTON.

Rome, 21st—The corpse of Mariani was taken to the railway station to be sent to France. The ceremony was imposing; the whole garrison were under arms, and lined the streets to the station. The remains were escorted by a large military force, Ministers, Secretaries of State, the Diplomatic Corps, Generals and Court dignitaries. The whole thing was meant to show Italian good-feeling towards France.

Berlin, 21st—A deputation from the 14th Hussars, of which regiment the late Duke of Aosta was Honorary Colonel, has left for Turin, to attend the funeral.

Lisbon, 21st—Four thousand of the trading classes paraded the streets last night crying "War on England!" The excitement continues; but is bound to exhaust itself. Mr. Petre, the British Minister, forbade the British squadron to enter the Tagus. The presence of the squadron would, no doubt, have caused many complications. To maintain order, the streets are constantly patrolled by cavalry and police; and, there is a guard at the British Legation.

Madrid, 22nd—Duke Veragua will take Becera's place as Colonial Minister in the new Cabinet.

Paris, 22nd—It is proposed in the Deputies to suspend Laguerre, Delourede and Millevoie for a whole session, owing to the scenes they promoted, to prevent Joffrin from speaking.

London, 22nd—Dr. Adler, Chief Rabbi of the Jews in England, is dead.

Washington, 22nd—It is said that Blaine is fretting at the death of his son, and will leave the Cabinet before a month expires. It is known that he and the President do not agree well.

MONTEVIDEO.

January 22nd

Bocayuva is said to be delighted with his reception.

There is a continuous brass-band playing in front of the Oriental and Continental hotels; and a stream of visitors pours in and out.

The report of twenty influenza cases on Flores Island is not confirmed.

Bocayuva will leave for Buenos Ayres on Saturday.

The ceremony of the distribution of prizes to the exhibitors of 1885 took place on Sunday and was most imposing.

3,600 MILES OF PAMPA FOR SALE.

Dr. Edward Basavilbaso, National Commissioner for the sale of twenty-four thousand square leagues of Government lands, has published his first report on the three thousand six hundred square miles of land in the Pampa territory. The report is in Spanish, but will no doubt be translated into Italian, English, German and French, for the benefit of these nationalities. Besides a general map of the Argentine Republic, the report contains a large map of the Pampa territory, four hundred leagues of which are now offered for sale. A third, but smaller, map gives an accurate idea of the 24th section, or the four hundred leagues to be sold. There is a general appearance of cheapness about the "get-up" of this pamphlet that is most striking, and bespeaks the crisis in our midst and will not escape the attention of the European reader or buyer.

These four hundred leagues of land are offered for sale under the conditions of the law of the 12th October last year. The substance of that law is—

Art. 1st.—The National Government is hereby authorised to sell in Europe twenty four thousand leagues of fiscal lands.

Art. 2nd—Tenders shall be called in the principal European cities at an upset price of two dollars gold per hectare.

Payments shall be effected half cash and the remainder in instalments not exceeding two years.

Art. 4th—The registry of deeds of sale shall be exempted from stamp tax.

Art. 5th.—The proceeds of the sale shall go to form a Conversion Fund to redeem the notes of the free banks.

The conditions are short and simple. The National Commissioner, Dr. E. Basavilbaso, was named on the 12th October 1889 and has full powers from the Executive. For the present, only one section of National lands is offered for sale, on the western limit of the so-called Gobernacion de la Pampa—a large territory covering an area of 144,919 square kilometres with a population of 20,000 souls. Our foreign readers may not be aware that this used to be the great Indian region, until General Roca, in 1878, reclaimed the territory and drove the Indians South of the Rio Negro and over the Andes. The lands were then measured and sold under the terms of the famous Rio Negro land loan; we say famous, because the parties who availed of the offers of that land loan and purchased lots of 4 leagues at 10,000 old paper dollars per league, have as a rule made enormous fortunes out of the great rise in lands since then. The Rio Negro Expedition, carried out by General Roca, built the foundations of the present great prosperity of the country, and it is by no means improbable that the present policy of land sales may inaugurate another era of expansion, similar to that of 1879; and the parties who to-day buy these fiscal lands at $5000 gold per league may before long treble and quadruple their investment in the process of appreciation that ensues with the sub-division of land and its transfer from one owner to thousands of small owners.

The European buyer may confide in the bona fide nature of the pamphlet before us. So far as we can glean, Dr. Basavilbaso has simply appended the description of the lots offered for sale, as written years ago by the men who measured the territory. The surveyors have gone over the ground with ease, and not a single lot has escaped their notice. It is only fair to add, for the benefit of European buyers, that the local public here have fought shy of this XXIVth section of the Pampa territory, owing to its distance from the great markets. Thus in the section, out of 400 leagues, we do not think there are thirty leagues of private property, although buyers could have availed of the privileges of the Rio Negro land loan to buy in the section. Yet $5,060 gold for a league of land, on the borders of the province of Mendoza, in the neighborhood of the Rio Colorado, and with the prospects of an interoceanic railway connecting it with the Atlantic and Pacific sounds cheap, and we think that Europe will be wise if it takes up this Pampa land at the upset price of the Argentine Government.

THE LONDON AND RIVER PLATE BANK.

London, Dec. 14th.

The report which Mr. Drabble read yesterday for the shareholders showed a very successful year's business and goes some way to convince timid people in England that the River Plate is still a fine field for legitimate business. But for the mistake which General Roca made in January, 1885, in meddling with the currency, it would be difficult to say how many Anglo-Argentine enterprises to-day might not have had as brilliant a balance sheet to show as the one now before me. Five years of painful experience have shown, as I said at the time in the columns of the STANDARD, that in January, 1885, we were entering on a wrong path, which must end in tremendous confusion. It is lamentable to reflect that a little careful book-keeping and prudence are apparently little thought of.

Advices yesterday from Buenos Ayres confirm the news of some weeks that gold hovers between 230 and 240. It surprises everybody in London how business can go on in such a crisis. And yet we find the London and River Plate Bank prosperous, which speaks well for its management. Mr. Drabble wisely cautions the shareholders that there are "breakers ahead," the position of affairs being far from pleasant. The addition to the reserve fund shows prudent forethought and gives confidence to all concerned. Meantime, opinions are divided as to the currency, a few sanguine people hoping next year to see gold down to 200 or 180, others expecting a higher premium than at present.

LATEST DATES.

London, Dec. 24th

Mr. T. W. Russell, M.P., describes as "absolute and undiluted fiction" Mr. Parnell's entire statement at the Liverpool Reform Club banquet regarding the Coolgreany estates. Mr. Russell says he is not even a member of the organisation which had for its object the fighting of the Plan of Campaign, but he gives a detailed denial to most of Mr. Parnell's statements as to the terms on which tenants took farms under the "Cultivation of Derelict Land Trust".

It is reported that the health of the Bishop of St. Albans continues very bad, causing anxious fears among the members of his family.

The Liverpool Corn Trade Association, Limited, have passed a resolution making allowance for strike, riots, or combinations of workmen, in the delivery of grain under contract.

Mr. Arthur Newton, solicitor, Great Marlborough street, Mr. Frederick Taylerson, his articled clerk, and an interpreter named Adolphus de Galla appeared to answer summonses at the Bow-street Police Court yesterday for having conspired and combined with divers other persons to obstruct, prevent, and defeat the due course of law and justice in certain proceedings and to prevent and defeat the due course of justice in respect to the said offence. The proceedings disclosed many new particulars in connection with what is known as the West-end scandals. The allegation against the three defendants who appeared yesterday, briefly stated, was that they endeavoured to get a number of Post Office boys out of the country, and that Mr. Newton was acting in the interests of Lord Arthur Somerset and a man named Hammond, alleged to be keeper of the house in Cleveland-square, where the offences were said to have been committed. The further hearing of the case was eventually adjourned for a fortnight.

A brutal contest for the pugilistic championship took place at Bruges, yesterday, between Smith, of London, and Slavin, of Australia. Fifteen rounds were fought Slavin having the best of it throughout, and punishing Smith severely. Several times during the fight, however, Slavin was brutally kicked and beaten by Smith's supporters, but he ignored these cowardly attacks, and confined his attention to Smith. At the end of the fifteenth round, the referee, being believed to be apprehensive for his own safety, pronounced the affair a draw, notwithstanding Slavin's anxiety to bring the matter to a conclusion. It is believed that the disgraceful conduct of Smith's backers has dealt a heavy blow to prize-fighting.

In the cotton market yesterday there was more doing in spot cotton at firmer prices, and futures after losing 1/2 to 1 point, closed firm at Saturday's final rates. In the corn market, wheat was firmer for spots, and 1/2d per cental dearer for futures; flour quiet, and maize dull In the provision markets, beef was dull, pork in rather better request, and bacon and lard quiet. In the general produce markets, sugar was quiet, coffee steady, cocoa quiet, rice steady, linseed quiet, hemp steady, palm oil firm, tallow quiet, linseed oil scarce and firm, rosin very steady, turpentine firm, and petroleum very quiet. On the Stock Exchange, home railways were idle with little change; Americans and Canadians quiet; Consols unchanged, at 97 1/2 to 97⅞.

The French Minister of Public Works yesterday submitted at a Cabinet Council the application by the Channel Bridge Company for a concession to construct a bridge across the English Channel.

Senhor Barros Gomez, in his reply to Lord Salisbury, declares that Major Serpa Pinto ordered no attack on the British flag, but merely repulsed an attack by a hostile native tribe. The Council of the International Peace and Arbitration Society have proposed arbitration to both the English and Portuguese Government.

A New York telegram of yesterday reports a riot between negroes and whites at Pott's Camp, Mississippi, resulting in the death of two negroes and the serious injury of several on both sides.

The death is announced of Mr. Thomas Nuttall, of the extensive cotton-spinning firm of Thomas Nuttall and Sons, cotton spinners, Farnworth, Bolton.

Rangoon, Monday.

Prince Albert Victor this morning performed the ceremony of opening the Rangoon Drainage and High Pressure Water Supply Works. These works, which are being constructed on the Shone system, are the first of the kind opened in India. The ceremony passed off very successfully, and concluded with a large breakfast party, at which the Chief Commissioner proposed the health of the Queen. His highness returned thanks and also proposed success to the works.

Berlin, Monday

To-day, the court at Brunswick dismissed the suit brought by the sons of the late Countess Civry against the King of Saxony and the Duke of Cumberland. The plaintiffs claimed that their mother was the legal wife of Duke Charles of Brunswick, and that they were in consequence entitled to the enormous fortune left by the last Duke of Brunswick. The litigation has lasted several years.

New York, Monday

The entire business portion of Petrolia, a town in the oil district of Pennsylvania, has been destroyed by fire. The damage is estimated at 100,000 sterling.

Zanzibar, Monday

Emin Pasha has much improved, but is very thin and weak. The German doctors consider it would be very unsafe to attempt his removal from Bagamoyo in less than three weeks from the present date, as the patient requires perfect rest. The Khedive's steamer Mansourah has arrived, and is awaiting Emin Pasha's orders.

Brussels, Monday

News has just arrived from the Congo State that last September the Belgian expedition commanded by Captain Vangele met on the left bank of the river Oubangi several Arab caravans carrying slaves. Captain Vangele attacked and vanquished the Arabs, seizing two boats and liberating the slaves.

Cairo, Monday

Colonel Ross has submitted a plan of improving the irrigation of Upper Egypt. This means an enormous saving of revenue, as last year's loss exceeded £300,000. France not having replied about the conversion scheme, the Government has been compelled to increase the land tax three piastres per acre.

ARRIVAL OF MINISTER BOCAYUVA

Montevideo, 21st.

The Brazilian corvette Riachuelo, splendidly illuminated with the electric light, and accompanied by the gunboats Rivera and Suarez, which had gone out to meet her, steamed past Flores Island last night at 11 o'clock. The three vesse's soon arrived in the outer roads, and the Riachuelo fired a Republican salute, which was responded to immediately. The sanitary officer sailed out at once to see if Minister Bocayuva or any of his party was suffering from yellow fever, but they were all in sound health on board. The Argentine cruiser Patagones, a really beautiful boat, steamed out towards 9 o'clock to the outer roads, followed by the diminutive Azopardo, and very warm salutes were exchanged all round again through the mouths of the smaller cannon. The Brazilian steamer Humaita with the deputation of Brazilian residents was then seen steaming towards the Riachuelo to salute the Minister. Messrs Ponte-Ribeiro, Minister Guido and other distinguished gentlemen were on board the Humaita, and finally the Rayo conveyed the official party from the mole head. The sight was quite imposing. The warmest enthusiasm prevailed, and Argentines were congratulated on the peaceful issue of a question which, through court-intrigues, might have involved a South American war.

The official party were soon on board the Riachuelo, and Minister Bocayuva received them at the gangway, and all subsequently adjourned to the grand saloon where the presentations and handshaking took place amidst the warmest expressions of sympathy. Dr. Zeballos, your F. A. Minister, made a neat little speech, to which Mr. Bocayuva replied in graceful terms. While all this was going on, the bands were playing the Brazilian and Argentine hymns, which did not harmonise so well as might have been expected under the circumstances. Mr. Bocayuva speaks Spanish with the fluency of Dr. Wilde. Champagne was speedily uncorked, and Minister Moreno drank to the peace and prosperity of the three great South American nations.

To the above, we may add that, as soon as the treaty is signed, Minister Bocayuva will come to Buenos Aires. Great preparations are now being made to receive this worthy bearer of the olive-branch; and to save expense and economize, which is necessary at the moment and which must not be lost sight of in all this jubilation, most of these preparations may be utilized for carnival. We cannot say on what particular day Mr. Bocayuva will leave Montevideo, but he will receive a welcome here such as he never dreamt of; as all the Clubs are making preparation to fete him, and the utmost enthusiasm has been raised by the settlement of this Misiones Question. The Ourubia Theatre is being superbly decorated for the reception.

LONDON LETTER.

(From our own Correspondent.)

DOM PEDRO AT LISBON.

December 13th.

"What is the opera?" On being told that it was Verdi's "Otello", the Emperor replied, "I shall go." This is part of a conversation which took place between the deposed Emperor of Brazil and an interviewer when the Alagoas arrived in Lisbon waters. He has been often interviewed since, and so have all his family and suite and to-day, by the arrival of the Atrato, authentic details of the revolution in Rio have been received and published by the London papers, and notably by the *Times*, who had the benefit of two correspondents. One of these seems to be connected with consular or official agencies of some kind, and the other is a manager of one of the English Banks. The first, I should say, is a Scottish gentleman. I judge by little difficulties he has with "shall" and "will", by the accuracy and cleverness of his letter, the trouble he takes, and his perfervid interest in events, as well as by the class-like sentiment of loyalty and his affection for the "bonnie princess," which peer through a "phœlosophic" acquiescence in the Republic and force of circumstances. The 'manager's" letter is downright English; short, ill-written, and to the point; and "down" upon everything. "The Republic", he seems to say, "is established; the Emperor is gone, and a d—— good thing too." The *Times*—that is, Mr. John Walter—hating republics always, and the Brazilian Republic in particular, since it has been specially patronised by Mr. Gladstone, is not so pleased with the "manager's" letter, but in that of its other correspondent it finds an opportunity of poking fun at poor Mr. Gladstone, who, in his Manchester speech, alarmed the people at Windsor—so the *World* says—by throwing the Brazilian Revolution at their heads as a caution to snakes. The *Times* laughs at Mr. Gladstone's new-found illustration of improved "public spirit" and the bettering of humanity. The revolution at Rio, it shows us triumphantly, was a vulgar military and South American "pronunciamiento" of the old kind, and it rather leads us to expect the old results. You will know that the Spanish word just quoted, when they have once learned to spell it, is as that blessed word "Mesopotamia" to cockney writers on the press. Lest I should forget it, and it is, besides, germane to the present subject, I must call your attention to the fact that poor Macdonald, for whose recent and lamented death the *Times* puts itself into deep mourning, was after all not the "simple Simon" of the forgery case. The London correspondent of the Liverpool *Daily Post* says that the whole mess was Walter's, and that the chivalrous "Glencoe man" McDonald, died a victim to fealty to his chief. So that, it is Walter who is "Simple Simon", it is Walter who is the *Times*, and the gentlemen in Brazil can appraise the opinions of that paper accordingly.

We are not yet thoroughly informed as to the events in Brazil which led up to the late summary notice to monarchy to vacate. Evictions even in Ireland have a history and a very difficult one. To allow Mr. A. J. Balfour and his "Maiden" to arrest our attention as the figure of General Deodoro da Fonseca seems to fill the little mind of the *Times*, would be a grave error. We know all about the land-owners and abolition of slavery, the military discontent, the Jesuits and the Comte d'Eu; and the theory of the Emperor's tacit participation in the revolution is quite extinguished; but there are other things to be known, and the Buenos Aires STANDARD, as an independent English paper, might by and bye from its proximity to the scene give us valuable information.

All I have to tell you about are the doings, the opinions and sayings of the deposed Emperor. Well, I have already told you something, and now I will tell you how he was dressed when the "Alagoas" steamed into the Tagus. He was standing by the wheel, pointing out the main features of the country to Baron de Loredo, his ex-minister. He wore a wide, long mantle, a blue silk neck-tie with long ends and a wide-brimmed soft felt hat. Being interrogated as to the causes of the revolution and the future of the Imperial dynasty, he said "Yes it was very cold, but that he had had a very pleasant voyage". The most that could be elicited was that he considered himself a prisoner of war on board the Alagoas. The Comte d'Eu wore a sailor's hat. He was much sunburnt, but looked well. The Crown Princess had her head muffled up in a pink woolen scarf. The weather to Europeans might for the season have been called warm, but the young prince Pedro Augusto shivered with cold at his mother's side. He was very ill, and at times delirious during the voyage. The Empress was very sick for two or three days, but she bore the fatigues of the trip bravely. After a short stay at the Hotel de Braganza in Lisbon, the Imperial family go to Pau, and will make a pilgrimage to Lourdes, and afterwards they will stay for the winter at Cannes, where the Emperor, refusing to be beholden to anyone, has rented a villa. The correspondent of the *Daily News*, from whom I take the details of the arrival of the Imperial family, says: "Prince Augusto's health was a sore trial to his grand-parents on the voyage. He was haunted by the conviction that he was tracked by a poisoner and another would be assassin. Those who report that this young man is likely to supplant the family of the Crown Princess cannot have seen him. There was no time to provide him with suitable clothes for the voyage, and he nearly perished from chills in the intervals between the hot fits of fever". "The admirable Empress" said the Emperor, "has been a saint on the voyage, attending to our suffering grand child, and showing us an example of moral courage and patience cheering us, and teaching us where true greatness lies. Her favorite reading on the voyage was the 'Life of St. Vincent de Paul and his maxims'. Breakfast was then laid. The emperor sat at the end of the table and the Comte d'Eu followed with the Empress. Herr Stoll, the little Princes' tutor, though a German, always spoke to them in French, which they speak fluently, but with a strong foreign accent. They are nice, bright boys, and misfortune did not spoil the appetite of any. The Crown Princess was well enough to play their favorite music, but the piano was the worse for wear and out of tune. "Suddenly the guns on the forts and men of war began booming"—you know the rest. The Imperial family of Brazil were well and kindly received by the Portuguese royal family and the people of Lisbon. There is one piece of political information worth quoting in the gossiping letter I am quoting. It says: "The only possible secessionist movement in Brazil will be from the German European element."

You will no doubt have heard that soon after reaching Lisbon the Empress received a telegram from Rio announcing that all her jewels had been stolen. They comprised perhaps the finest Brazilian diamonds in the world and had never been out of the possession of the Imperial family. The loss is a heavy blow to the Imperial couple. The Empress counted on her caskets as a resource in the event of the revolutionary government refusing to continue the subvention to the Emperor, who is not rich, however much the Comte d'Eu may have bagged.

LATEST FROM PAYSANDU.

Our active Montevidean contemporary the *River Plate Times*, publishes the following batch of news from Paysandu:—

During the last six months great improvements have taken place in town. The building trades have shown greater activity. The municipality are erecting a splendid edifice worthy of Paysandu. The plans were made by Messrs Brummur and Lafite. Many new warehouses and shops are being built: one specially calls for mention, that of Mr Branca, situated in the most commanding position in Calle Real; when finished this building will contain handsome show rooms, complete workshops and dwelling house, for carrying on a large furniture manufactory.

Lands continue to rise in value, and many lots have been secured for Englishmen resident in B. Aires and Montevideo. Mr. Ritchie has lately bought two valuable plots, situated in Calle Real and 8 de Octubre. Mr Donald Campbell of Guaviyu has also bought building lots. Don Alberto Santamaria has bought, in conjunction with another gentleman, eight squares of building land on the south side of town near the entrance to the colony, that will sooner or later be established, on Messrs Horta's camp.

Our camps are in splendid grass and the cattle though generally backward are fattening rapidly. Much disappointment has been felt at the low price offered for first class *novillos* by Liebig's Ext. of Meat Comp., but we believe more liberal instructions have been given to their *troperos;* but still they have allowed the local saladeros to secure many of the best and heaviest *invernadas* in the Department. The Saladeros of Caaa Blanca and Santamaria have killed cattle of unusually heavy hides. We believe Mr. Santamaria has secured large contracts for his most excellent extract of meat and is now using a large quantity of lean beef for extract purposes.

Increased interest is shown in fine cattle, and mestizo bulls have been freely bought by estancieros. We believe more rational ideas of breeding are dawning on our camp friends. They now see how useless it is to expect to breed large sized cattle on camps that under the best management cannot produce a steer at four years old more than 800lbs live weight. Under such circumstances they see that the greatest improvement cannot be got by the use of bulls weighing 1500 lbs to 2000 lbs, but by the medium size breeds, the aim being to decrease the bone and increase the beef production of our animals. The Cabaña Loraine have sold some splendid Devon bulls this season. Mr. Antonio Baptista secured "Quegnay" (30) by Eabous, a handsome and well formed bull, his head and entire front especially so, his brisket descending as though is would kiss the ground, besides this his ribs are well spanned and high quality of flesh is among the most noteworthy of his features. "Coronel" (34), bought by Mr. Thomas Baptista, is "a big little one", a compactly built, low legged and deeply meated, Devon bull. These two splendid animals go as real misionaries to the camps of the Queguay to show the estancieros what careful breeding can do. Mr. Benajin Peredes bought "Soto", a bull presenting an even conformation with level lines, nicely arched for rib and strong loin, with plenty of balance in his hind quarters. "Soto" goes to head a herd of selected cows in Buricayupi.

Immigrants are now coming to Paysandu and already many families are breaking up the rich soil of the camps in Guaviyu. There is no doubt that our future depends on prudent immigration, agriculture and agricultural industries.

The government may do much for us in the way of enactment of wise laws favorable to the development of agriculture, but we must look to our own individual efforts for the successful establishment of colonies.

If each Estanciero would take one or two immigrant families and enter into a partnership for a fair number of years, aiding these poor families for the first two years and reimbursing themselves out of the produce of the land, for advances, we should soon have hundreds of agricultural centres, each family would bring their friends from Europe, and the Estanciero would soon find his properties rising in value; and where now the "gaucho" roams in primitive freedom, the plough would cause hundreds of happy homesteads to be erected, bringing wealth and plenty to all concerned.

Railway Items.

A very vigorous and lengthy report has been sent by Inspector Baibiene to Dr. Araoz on the working of the Argentine Great Western. The Inspector has failed to find even one redeeming feature about this line. Amongst other things he states that the employees are incompetent and badly paid, that the station-masters have turned the despatching of goods into a private business, that very often trains are delayed because the station-masters are asleep, that other times for want of oil and grease the axles of the wagons become red-hot. These charges are very serious, and we should very much like to hear the other side of the question. The Inspector attacks the manager, the employees, the line and every department of the concern. He says that 20,000 vine-posts have been lying for three years at Villa Mercedes, and that such are the delays of the company, that at one time rice was selling at $2.50 per kilo in Mendoza, and there were no matches to be had there. Mr. Baibiene's report takes up seven pages, but the foregoing will give an idea of its general tenor. He calls upon Dr Araoz to adopt the strictest measures to correct the abuses he enumerates. Before acting, however, on the inspector's advice, Dr. Araoz should institute a very careful inquiry into the abuses denounced.

The La Plata Senate, in the course of Monday's sitting, sanctioned the following projects:—F. Basualdo and Co. new branch to their proposed line from Pergamino to Colon. Chanussy and Co, railway from Port San Clemente to Maximo Paz Station, and M. Ferry and L. Zamoran a steam-tramway from Zarate to 9 de Julio.

The hon. gentlemen also sanctioned the amendments made by the Deputies in Messrs. Dorado and Co's project for a railway from Villa Elisa to La Plata Port.

Engineer Venezia has drawn up an exhaustive report for the Board of Public Works on the Pacific railway. According to this gentleman, the works in the Laguna Picassa have been finished, at least in a provisional way, and the earthworks that stretch across the lake are sound, and trains can run across without danger. He says, however, that to avoid the possibility of accidents, the company should raise these earthworks 0.6 metres and flank them with strong timber. The company have already raised the level of a considerable part of the line in those parts in order to avoid a repetition of the recent disasters caused by the periodical floods. However, the company, according to Mr. Venezia, have not done enough, and the level should be raised to 1.30 metres on an average, and the willow props must be replaced by hard timber. Besides, more culverts should be built.

Small lakes or "lagunas" have remained after the floods at km. 478, 443, 444, 459 and 458, and the earthworks there must be raised on an average one metre. The line was partially flooded between Soler and Mackenna; the line there was provisionally arranged for a resumption of traffic, but the earthworks must also be raised there. He states that so far the works of the company may be considered provisional, and he thinks it would take twelve months at least to definitely repair the line. The line from Soler to Rufino, he says, may be re-opened to traffic on the 1st of February, but the trains must run with the utmost caution.

Telegrams were received yesterday from Chile announcing the arrival at Talcahuano of the steamer Lavinia with the first cargo of material for the Bustamante railway across the Andes. It may be remembered that this concession, which is a very valuluable one, was hawked about the London market for a twelvemonth and was finally taken up by a syndicate of foreign capitalists. The second cargo is expected on the 28th. The earthworks have been pushed forward with great activity, and in February the contractors will begin piercing the tunnel through the Andes at Antuco.

A telegram from Bahia Blanca states the foundation stone of the terminus of the Bahia Blanca and North-Western Railway was laid on Monday. Mr. Raffon the architect, gave a banquet on the occasion. The terminus is to be a monumental building. The rails of this railway are now being laid, which shows that the contractors are very active.

It is rumored that a gentleman who went to London some months ago to negotiate some La Plata railway concessions, has returned, as the French say, "bredouille," that is, the affair has failed.

Most of the railway-companies here, to avoid loss by the premium in gold, were recently authorized to increase theis tariffs on a sliding-scale. Railway shareholders are certainly the luckiest of mortals. We do everything in our power to keep them from losing even a penny on their returns while the ill starred public toils and toils and has to put up with the premium as best it can. However, this is not our point. We wish merely to state that yesterday we received a complaint from a camp subscriber against one or more companies, who in spite of the fall in gold, continue to enforce a tariff proportionate to a much higher rate of premium than that which is quoted to-day. This should be looked into, as it is manifestly unfair to charge rates which correspond to imaginary premiums.

EDITOR'S TABLE.

Ninety in the shadiest of the shade! What we said about 105 in the shade yesterday should have referred to that hot corner Bahia Blanca; but, really, we felt like 2000 in the shade. The worst of it is, that weather prophets affirm that there will be no rain or wind for a week. It's a nice look-out.

At a very large meeting last night the members of the English Literary Society passed the resolutions of which Mr. Odlum had given notice (with one small exception.) The Committee thereupon withdrew their resignation. We reserve a full report till to morrow's issue.

Our diminutive new contemporary *Higiene* has become a daily. We salute it warmly. It is quite impossible—even if we were so minded, which we are not—to give it a cool salute this cremating weather.

Oh! The venerable Senators in La Plata have approved the throwing away of 50,000 dollars in subventions to theatres. It's enough to make tax-payers cry like children to see their hard-earned money going in this way.

We are requested to say that the time for entries in the Lawn Tennis Tournament has been extended to the 26th instant.

The subscriptions for the Boca fire victims made further progress yesterday. Messrs. Bollini and Muro of Montevideo sent 500 dollars by cable. A good many of the families have a little money saved, and are not quite destitute.

Amongst the marriages registered yesterday was a very bad case of May and December—a boy of 18 and an old lady of 66.

The news in fashionable circles is the approaching marriage of Mr. Patrick Dowling, nephew of Mr. Duggan, to Miss Elena Mullen, daughter of the late Hugh Mullen, estanciero, Fortin de Areco, to whom we offer our congratulations. The marriage will take place in the Merced Church on the 5th of next month.

We received the following yesterday:—

Dear STANDARD,

I noticed in the STANDARD and *La Nacion* of to-day's date, the burning of a box of "Bright's biscuits," which was amusing to those people who know this most important house. John Bright Bros. Limited, confine themselves, and always have done, to Manchester goods, carpets and silk plush, and are as much connected with the biscuit trade as yourself.

Yours truly,

Nemo.

The *Patria Italiana* has received another wire from Rome stating that Rossi the actor is quite well, the report of his illness being a "bola". The funeral of the Duke of Aosta takes place to-day in Turin. In the Italian Legation in this city there will be a ceremony to honour the Prince's memory to-morrow.

In addition to being a soldier and an explorer, Major Serpa Pinto is also a man of letters. His book "How I crossed Africa" is well worth reading for itself, and at this particular moment, of course, possesses exceptional interest.

People want very badly to know why the ironclad Riachuelo was not put in quarantine on arriving at Montevideo from Rio? It would be an awkward business if a "caso" were to turn up through this precaution being omitted.

The news from Pergamino is of the funniest. The Mayor there has had a burden greater than he can bear on his mind for some time. The point to solve is can two or more blood relations sit at the Municipal Council of the great and good town of Pergamino at the same time? The assessor at La Plata has been consulted; and that official—who evidently relishes a joke—has penned a quite serious report to the effect that they cannot, nor brothers-in-law either. There may be some good in such a law, but it's funny all the same.

The consumption of "agua corriente" water on Tuesday was 31,900 tons and was probably three thousand more yesterday, owing to the great heat. The longest figure yet reached has been thirty-six thousand tons. The space this would occupy may be set down as two squares long, ten metres wide, by three metres deep. The consumption has greatly increased of late. The new tank will be completed in about four months, but will not have the pressure of the old Chilian tank in Plaza Lorea.

Tucuman advices say that the tobacco crop there this year is splendid; nevertheless, it will all end in smoke, we fear.

The "English of South America" are going to fortify Valparaiso. What new game is up, now that the alliance with Brazil has been knocked on the head?

The Minister of the Interior means to extend the water-works to the Boca as soon as possible. The fire has opened H. E.'s eye to the urgency of this step. The blaze might have been mastered in the beginning if there had been a good supply of water.

We received the following plea for the Tram Companies yesterday and publish it with much pleasure. "Dear STANDARD. In reference to an extraordinary paragraph about Tramway fares in the Editor's Table, allow me to remark that at the time they were fixed at eight cents, eight cents were *eight* cents, and not *four* cents as now, when to anyone in possession of his five centses, it is clear as a pike-staff that sixteen cents ought, in common justice, to be the tram fare of to-day. If all the Argentine world, from the leadingest merchant down to the poorest "mercachifle" of the period, raise their price in accordance with the depreciation of the circulating medium, why should the Tramway Companies be denied the same right? Have not all *their* expenses increased in equal ratio to the advanced premium on gold, in which they have to pay their dividends, if the miserable interest they return merits such a highfalutin term as dividend? It is the unhappy shareholders "that are getting clean sick" of the impositions levied upon their property from the municipality downwards, and the best plan for getting rid of "the two cent nuisance in tram cars" would be to put up a notice "no passengers are admitted who do not bring the exact fare; in any case no change found"; or else: "Fares 8 cents if paid in copper; 10 cents if in depreciated Government paper". Under any circumstances the Companies are not bound to find change for any one. They publish their fares at 8 cents, and if Richard, Thomas, and Henry are incapable of providing themselves with the correct necessary amount before proceeding on their travels, *que con su pan se la coman*; but, keep out of the Tram Cars.

Yours contentiously

Common Cents.

Referring to the bull-fight on Sunday last, a Montevideo colleague says:—"This refined amusement was very poorly attended on Sunday last, and seems to have been voted rather a failure by the "aficionados." Summary: No bull-fighters killed; seven horses killed and six wounded; attendance poor; sport poor; weather splendid."

The *Sud Americano* is rich in portraits and views of Chile, Bolivia and this republic in its last number. Amongst the former we find the late tenor Gayarre, Dr. Moreno, Argentine Minister in Rio, and Dr. Uriburu, Minister in Chile. The view of the willow forest in the Chaco is very good, and the same may be said of all the

only ones that have resisted the crisis, but the sale of the new certificates referred to was at the rate of 250 per cent premium and at this, price there are many buyers and no sellers. The Directors will hold their meeting in a few days. The business of the half year was splendid; the dividend for the half year will be 10 per cent gold and $250,000 gold will be set aside to the reserve, being the largest reserve the bank ever put by in a half year.

The sale of 20 fully paid shares Banco de Italia at 300 fts. gold was reported this evening, right to new shares and dividend to the buyer.

Advices from Montevideo produced a most favorable impression. Dr. Herrera, who is now admitted will be the new President of the Banda Oriental, has declared that he is firmly opposed to "curso forzoso", and that he nails his flag to the specie payment mast-head. The whole commercial community of Montevideo and Buenos Ayres applauds Dr. Herrera for publicly stating his opinion on this important question. We believe that Montevideo will make a new start under Dr. Herrera, who is admitted by all to be the best man for this post.

Notwithstanding the great heat, the bank managers were at their posts to-day, and all the banks were crowded. It is really astonishing to see all that is going on now every day at the banks. Formerly it was only on a Saturday that one saw the bank-counters so thronged, but now every day is a Saturday.

This morning Mr. Thomas Duggan, president of the Central Market, took the Hon. J. Baring down to the Riachuelo to inspect this magnificent market. Mr. Runciman and Mr. Pauelo accompanied the party. Subsequently Mr. Baring visited the Darsena and Dock No. 1. It seems to us that Mr. Baring is making the most of his time, and allows very little grass to grow under his feet. He leaves now for Colonia, to have a look in there, and from thence goes overland to Montevideo.

Exchange ruled to-day at 47¼d. London and 4.98 francs Paris. The National Bank continues to draw in paper at 2.28 francs and 21½ sterling. Strange, that with the National Bank drawing the rates have not advanced.

Discount brokers report first-class "pagarés" in paper at 10 to 11. Gold discounts difficult. We heard of a gold discount for 90 days at 12 o/o.

Strange to say, there are no telegrams from London since gold dropped last Saturday. We all know that the fall of 20 points in the premium must have produced a very good effect there, yet no one has a telegram. A very large lot of National Cedulas E was sold on 'Change to-day, and it is presumed for foreign account.

Business at after-hours resulted in a pitched battle between bulls and bears, the latter carrying off the advantage. The premium, after heavy efforts, closed at 115.80 o/o, a large business having been done. Operations for the end of March showed a decidedly weak tendency, the premium falling below 114 o/o. The quotations on the blackboard prove beyond doubt that the great campaign for a fall in gold will take place in February, and we may already surmise that all the loans will be arranged during that month. Operations in Cedulas and shares during the second ring were meagre, showing no change of any importance in prices

The following is a summary of operations effected this evening at the second ring:—

About five p.m. this evening great anxiety was removed by the receipt of a Lisbon telegram announcing that the Portuguese question with England would be settled by arbitration. This counteracted the bad effect of the morning's alarming rumours about an imminent rupture. The arbitrator in the difficulty will be the Pope; and if we are not much mistaken, it is on the privileges granted by Papal bulls some centuries ago that the Portuguese Government is creating all the row in Africa. The news, therefore, of England's acceptance of arbitration may be put in quarantine. Meantime, in Lisbon nobody will drink English beer; it would be bad for Portugal if London refused to drink port wine; such a sad eventuality is out of the question.

Nine hundred applications were sent in to the Provincial Bank in La Plata on Tuesday, the total amount applied for was over seven millions. Out of the nine hundred, about five hundred were considered and a round million was granted. They say that 600 fresh applications are standing over for the next sitting of the Board, and that their aggregate reaches an enormous figure; we do not doubt it, for never before have we seen such an extraordinary demand for money as at present.

Advices from La Plata announce that the issue of series P for seventy millions is already exhausted. So much the better; let the Board now rest on its oars and issue no more Cedulas for the next five or ten years.

The Procurador del Tesoro reported today on the application filed by the Industrial Company for the registration of statutes. He refuses to allow Art. 50 to be registered, since it amounts to a concession of authority to issue money, and at the same time he objects to the obscurity arising from the wording of other articles. The Company will therefore have to eliminate Art. 50, and draw up the statutes in a clearer manner. Several of the Insurance managers recently called Minister Pacheco's attention to measures that would tend to minimise the damage caused to our shipping in the Boca and the roadstead. They propose (1) that inspectors should be named to inspect the lighters and oblige the owners to keep them in good condition, for which a certificate must be held; (2) that the maximum capacity of each lighter should be specified; (3) that no incompetent hands be allowed in these lighters. These indications were subsequently submitted to the consideration of the Port-Captain, who, in his report, states that they had already been embodied in his Project of Maritime Regulations, which, owing to Congress not having had time to sanction, it has been laid before the Minister of Marine.

The meeting of the shareholders of the Constructora de Flores, whose balance sheet we have already commented on, took place yesterday, and about a hundred and thirty-seven people were present, which shows how many are interested in the concern. The report was read out by the secretary, Mr. J. M. Cabral. According to the balance sheet, the net profits are $4,274,522.90, of which nine per cent. was paid in quarterly dividends to the ordinary shares. Under the peculiar circumstances in which the company are placed, the board proposed that the profits should be distributed as follows—

Reserve fund	$550,000.00
Forty-five dollars per share, minus nine per cent. already paid	2,380,978.80
Founders' shares, ten per cent.	372,452.29
Board of Directors, five per cent.	186,226.15
Reserve Fund, five per cent.	186,226.15
Provisional Dividend	378,398.40
	$3,504,281.79

This leaves a balance of 220,241 dollars to be carried forward. To pay the dividend, the board proposed the issue of three millions in obligations bearing nine per cent. interest, payable quarterly. The meeting elected the following gentlemen to the vacancies on the Board—Messrs. G. Uriarte, Escalada and Guillermo Torres. A committee was also named to report on the proposition of the Board, in regard to the distribution of profits, and a vote of confidence in the Board brought the meeting to a close.

The following shews the property assets of the Constructora de Flores, and will be read by all those connected with this company and this suburb with much interest:

En Zarate, 128,000 vs. cds.

De terreno, en lotes, al alcance de todo, los bolsillos, en el progresista pueblo de Zarate que es uno de los mas importantes de la provincia, en agricultura.

Para probar esto, basta mencionar el movimiento maritimo habido en el año pasado; el cual es el siguiente: 220 buques de cabotage, 18 vapores de idem, 37 buques de Ultramar, 53 vapores de idem, que salieron cargados de cereales y otros frutos.

Fuera de la importancia real que tiene el pueblo, sobresale al es tirlo mas indiferente, el grandioso porvenir que le esta destinado. Los terrenos que ofrecemos estan sobre las barrancas del Parana, á pocos metros del rio. Linda por un lado con el Tramway Rural de Buenos Ayres á Zarate, y sobre la misma estacion; por otro lado con el hermoso chalet del señor Torres; a su frente y á pocos metros de dia sanla, como lo indica el plano, está el Arsenal y los diques flotantes en construccion donde se estacionará toda la Escuadra de la Nacion.

A poca distancia se encuentran tambien el gran muelle del Estado, la unica y grandiosa fabrica de papel que existe en la Republica, la fabrica de agarradle de muelle y «aladero "La Criolla"; los muelles del Tramway Rural y muchas otras fabricas é industrias.

El remate tendrá lugar en el mismo pueblo, en el hotel del Globo, del señor Capdevila. 431 17 F2

ESPECIFICO DE Hayward en Polvo
The cheapest and most effectual Dip in the market.
It costs a fifth of the price of Tobacco Dips.
It is the easiest of application, cold water only required.
It is the only Dip that is so durable in the wool as to keep the sheep clean and free from contagion from dipping to shearing, thus saving a great deal of valuable time and labour to the Estanciero during the winter months.
It is fast becoming the favorite Dip throughout the world, as it never fails in the worst cases of Scab.
See Testimonials from Flockowners in the Argentine Republic.
Manufacturod by TOMLINSON & HAYWARD, Lincoln, ENGLAND.
Established upward of 45 years.
Sold in cases containing either 80 small, 20 medium, or 10 large packets.
Each case makes 1600 English gallons, or 1900 Galones Argentinos.
